# Promoting good oral health since 1965

TePe's products and solutions are trusted by people all over the world for their daily self-care routines. From brushes, picks and flossers to oral care guides and education, everything that we offer is designed to help people maintain a healthy mouth.

TePe was founded by the Eklund family in 1965. Ever since then, we have developed our high-quality oral care range in partnership with the dental profession, taking responsibility for people, health and the environment throughout the innovation process.

# Sustainable choices matter to you and your patients

Climate change and its impacts are one of the greatest challenges of our time. That's why we made it our priority. Committing to the Global Goal of climate action, we strive to minimise our footprint and reach for carbon neutral products and packaging.

Meeting the expectations of our partners and consumers, we constantly expand our sustainable range. Today, most TePe products are made from renewable sources and produced using 100% renewable energy.

As dental professionals, you make important choices for your patients every day – and we are here to support you. Together, we will continue the development of new, sustainable solutions.

# We share a passion for knowledge

TePe's heritage is built on a close collaboration with dental professionals. We share the vision to bring healthy smiles for life by inspiring good oral health.

## TePe Share

We care about people's health. Therefore, we keep developing solutions for longterm wellbeing and a better quality of life. Considering the growing scientific support for a link between oral and general health, creating positive change is more relevant than ever.

Therefore, we invite you to take part of TePe Share – in-depth knowledge, topical research and engaging discussions. For your personal development and shared for the good of all.

# Interdental cleaning

TePe has a long tradition of developing products for preventive oral care with a special focus on interdental cleaning. Our range offers a variety of options to facilitate daily interdental care for everyone.

## TePe Interdental Brushes

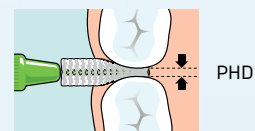

According to studies, interdental brushes are the most efficient tool for removing dental plaque between teeth. We have developed ours in collaboration with dental experts to certify the highest functionality, comfort and quality.

The wide TePe Interdental Brush range offers an option for everybody, multiple sizes, two bristle textures and two handle lengths with a straight or angled brush head.

The brushes comply with the international standard for manual interdental brushes (ISO 16409) which stipulates nine sizes, 0-8. We offer colour-coded brushes in all nine sizes to cover the wide span of interdental space varieties.

### TePe Interdental Brush Size Chart

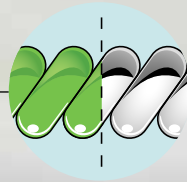

Original									
Extra soft									
Angle									
Colour	Pink	Orange	Red	Blue	Yellow	Green	Purple	Grey	Black
ISO size (0-8)	0	1	2	3	4	5	6	7	8
PHD (mm)	0.6	0.7	0.9	1.1	1.3	1.6	2.0	2.6	3.4
Wire size (mm)	0.4	0.45	0.5	0.6	0.7	0.8	1.1	1.3	1.5

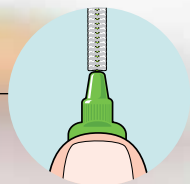

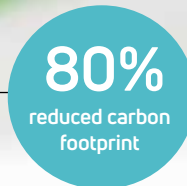

The measurement between the dotted lines shows the smallest hole which the brush can pass through, passage hole diameter (PHD), using a clinically relevant force.

## TePe® Interdental Brush Original

- The user-friendly handle offers a stable grip which enables cleaning with controlled movements.
- The bristles cover the entire wire for safe and gentle cleaning.
- The smaller brush sizes (0-3) have a flexible neck for increased durability and access. The larger brush sizes have a thicker, bendable wire.

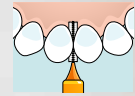

Plastic coated wire and rounded tip for safety and comfort.

Ergonomic handle for a stable grip.

Smaller sizes: Curve the flexible neck for access between the posterior teeth.

Interdental cleaning.

Larger sizes: Curve the wire for access between the posterior teeth.

Furcations.

TePe® Interdental Brush Original is also available in a mixed pack.

112 299

The plastic cap can be used for hygienic protection or to extend the handle.

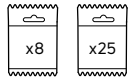

### A choice that matters

By replacing fossil raw material with plant-based oils, we have reduced the carbon footprint of our interdental brushes by 80% – without compromising on product quality, efficiency or design.

## Recommending the correct interdental cleaning device

Individuals with spaces between teeth benefit the most from interdental brushes, which efficiently clean the concave and irregular proximal area.

EasyPick is a good choice for healthy proximal sites, in cases of gingivitis, and as an on the go alternative for everyone.

Floss is recommended for tight, healthy proximal sites, where a brush will not fit.

### Ideal on the go

A handy pocket case for TePe EasyPick™ is included for easy cleaning on the go.

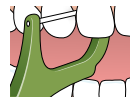

## TePe GOOD Mini Flosser™

- Pre-loaded dental floss holder for easy and convenient use in narrow spaces.
- Strong, thin, **teflon free** floss.
- Handle made from sugar cane and wood fibres.
- Bite plane for safe and gentle insertion.

622153

Insert the floss by gently biting onto the bite plane.

## Sustainable packaging matters

Shifting to renewable or recycled materials is a priority. Today, we use FSC branded paper and recycled cardboard, while our plastic packaging is made from either partly recycled or renewable materials. All packaging is 100% recyclable.

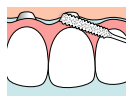

## TePe® Bridge & Implant Floss

Amount: 30 pcs

- Spongy, flexible floss with stiff ends for easy insertion.
- For daily cleaning of implants, bridges and orthodontic appliances.
- Intended for one-time use.

672 250

Implant-supported bridge.

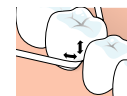

## TePe® Dental Tape

Length: 5 m / 40 m

- Wide, flat and coated with natural beeswax.
- Strong and durable, glides easily between teeth without shredding.
- Fresh mint flavoured with natural ingredients.

612 330  
(40 m)

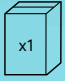

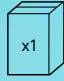

Gently move the tape along each tooth surface.

## Practice Box

- For practical storage of TePe's interdental brushes in the dental practice.
- 8 removable trays for IDB Original and Extra Soft, and 4 trays for TePe Angle. Each tray holds 15 brushes.
- A useful information chart with brush sizes comes with the box.

IDB Original /Extra Soft	TePe Angle™	Complete IDB, incl. 40 mix	Complete Angle, incl. 30 mix
			
922 045	922 041	2400022	2400023

## TePe® Gingival Gel

Size: 20 ml

- Contains chlorhexidine (0.2%) to fight bacteria and fluoride (0.32% NaF) to strengthen the tooth enamel and protect sensitive root surfaces.
- Non-abrasive, without alcohol and colourants.
- Fresh mint flavour.

982 373

Use the cap as a bowl to apply gel.

## TePe® Travel Case

- Practical travel case for TePe® Interdental Brush, TePe GOOD Mini Flosser™ or TePe EasyPick™.
- Air holes to allow bristles to dry.
- For hygienic storage during travel.

922 028

# Toothbrushes

TePe's user-friendly toothbrushes are developed for efficient and gentle plaque removal. A variety of models and sizes facilitate daily oral care for adults and children.

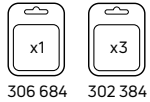

## TePe GOOD™ Regular

## TePe GOOD™ Compact

**Size:** Compact  
**Bristles:** Soft

- Small, tapered brush head for easy access.
- Rounded bristles for gentle and efficient cleaning.
- Made from plant-based materials.

306 685

## TePe GOOD™ Mini

**Size:** Mini  
**Bristles:** Extra soft

- Suitable from the first tooth until 3 years of age.
- Rounded bristles for gentle and efficient cleaning.
- Made from plant-based materials.

306 686

### Renewable materials matter

The choice of raw materials has a significant impact on the carbon footprint of a product. By replacing fossil materials with carefully selected renewable raw materials and using only renewable energy in production, we take important steps towards carbon neutral products and packaging.

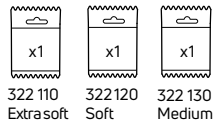

## TePe Select™ Regular

**Size:** Regular

**Bristles:** Extra soft, soft & medium

- Tapered brush head for easy access.
- Rounded bristles for gentle and efficient cleaning.
- User-friendly handle design.

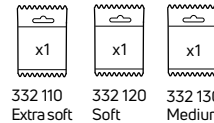

## TePe Select™ Compact

**Size:** Compact

**Bristles:** Extra soft, soft & medium

- Small, tapered brush head for easy access.
- Rounded bristles for gentle and efficient cleaning.
- Suitable for children and adults who prefer a smaller brush head.

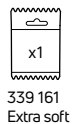

## TePe Kids™

**Size:** Compact

**Bristles:** Extra soft & soft

- Toothbrush with colourful print, suitable from the age of 3 years.
- Small, tapered brush head for easy access.
- Rounded bristles for gentle and efficient cleaning.

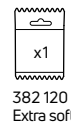

## TePe Mini™

**Size:** Mini

**Bristles:** Extra soft & soft

- Recommended from the first tooth.
- Extra small, tapered brush head and rounded bristles for gentle and efficient cleaning.
- Available with or without charming prints created Isa Form of Sweden.

# Imprinting service

Personalise your toothbrush with TePe's imprinting service – an excellent marketing opportunity for dental practices.

Logotypes, images and messages can be printed on our GOOD, Select, Select Compact, Colour Compact and Mini toothbrushes. Choose between a variety of different handle colours and print colours for amazing designs.

**NEW!** GOOD brushes for imprinting

## TePe Supreme™

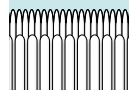

**Size:** Regular

**Bristles:** Soft

- Unique two-level bristle design for excellent reach.
- Easy-grip handle with thumb pad for extra comfort.
- Made from plant-based materials.

352 100

Two levels for improved access between and around teeth.

## TePe Supreme™ Compact

**Size:** Compact

**Bristles:** Soft

- Unique two-level bristle design for excellent reach and easy-grip handle with thumb pad.
- Suitable for children or for adults who prefer a smaller brush head.
- Made from plant-based materials.

392 120

## TePe Nova™

**Size:** Regular

**Bristles:** Extra soft (pink), soft (yellow) & medium (blue)

- Long brush tip and rounded bristles for efficient and gentle cleaning.
- Easy-grip handle with thumb pad for extra comfort.
- Made from plant-based materials.

312 110  
Extra soft

312 120  
Soft

312 130  
Medium

Longer tip for improved access to back teeth.

### Improved access

For even better access, the neck of TePe's toothbrushes can be angled. Heat in hot water, bend, and cool in cold water. TePe Supreme and Nova can be angled without heating.

## Made in Sweden

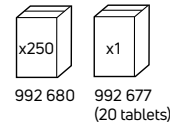

Products from TePe are of high quality and good value, developed, designed and produced in Sweden. TePe designs for long-term results, using 100% renewable energy and generating zero emissions during manufacture.

## TePe PlaqSearch™

Size: 20 tablets/per package

- A disclosing product for quick and simple self-check identification of plaque.
- Two-tone colour indicators.
- Teaching aid for better oral health.

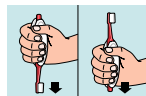

Differentiates new (red) and old (blue) plaque.

## TePe® Extra Grip

- Weighs only 30 grams.
- Provides a comfortable, stable grip which helps patients with reduced manual dexterity.
- Fits TePe Select, TePe GOOD toothbrushes and most of our special brushes.
- Easy to insert and remove by tapping the toothbrush handle on a hard surface.
- Made from certified renewable material.

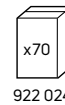

Insert/remove the brush by tapping the handle against a table, for example.

## TePe® Brush Head Cap

- Small, practical travel cap.
- Air-holes ensure quick drying of the brush.
- Suits all TePe toothbrushes and special brushes (except the Denture Brush).
- Made from certified renewable material.

## Implant Care Kit

Proper care and regular maintenance, at home and on-the-go, are essential for the success of dental implants. The TePe Implant Care Kit is the perfect solution, providing patients with the correct products and instruction for all their implant cleaning needs.

2400024

## What's in the box?

- 1 TePe® Interdental Brush Extra Soft
- 2 TePe Compact Tuft™
- 3 TePe Universal Care™
- 4 TePe® Implant Orthodontic brush
- 5 TePe® Bridge & Implant Floss

See next pages for product key features.

# Special products

TePe offers a wide range of cleaning devices developed for individuals with specific oral hygiene needs. Close collaboration with dental professionals ensures excellent functionality and a high level of quality. All products are clinically tested and evaluated.

## TePe Universal Care™

- A unique angle provides easy access to the lingual and palatal surfaces of teeth and implants.
- Facilitates cleaning in narrow and hard-to-reach areas.
- Rounded bristles for gentle cleaning.
- Made by certified renewable material.

472 368

The angled neck facilitates cleaning of lingual surfaces.

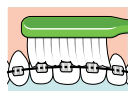

## TePe® Implant Orthodontic Brush

- Extra slim brush head for improved access.
- Optimised for cleaning buccal implant surfaces or orthodontic appliances.
- Long and thin neck for better access.
- Made by certified renewable material.

442 100

Efficient cleaning around brackets and wire.

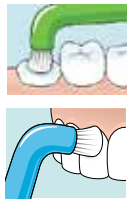

## TePe Compact Tuft™

- Optimised for precision cleaning.
- Dome-shaped brush head with dense, rounded tuft.
- Ideal for cleaning along the gum line, on the occlusal surfaces of emerging teeth, or impacted wisdom teeth.
- Made by certified renewable material.

432 100

## TePe Interspace™

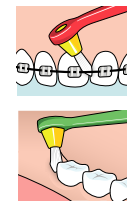

**Bristles:** Soft (yellow) & medium (blue)

- Ideal for cleaning furcations, implants, fixed braces or behind the last tooth.
- Brush tip can be attached to either side of the handle.
- Comes with 12 replaceable brush tips.
- Made with certified renewable material.

412 364 Soft 412 366 Medium

## TePe Special Care™

**Size:** Regular (red) & Compact (blue)  
**Bristles:** Ultra soft

- 12,000 (Regular) and 9,000 (Compact) ultra soft bristles for delicate cleaning.
- First brush stage after oral surgery.\*
- For patients with extremely sore and delicate tissues, e.g. as a result of trauma, radiotherapy treatment or post oral surgery.
- Made with certified renewable material.

452 150 Regular

452 151 Compact

\* A dental professional should always be consulted regarding brushing after oral surgery.

## TePe Gentle Care™

**Size:** Regular  
**Bristles:** Super soft

- Super soft filaments for gentle cleaning.
- Second brush stage after oral surgery.\*
- For patients with dry mouth, sensitive root surfaces or sensitive oral tissues.
- Made with certified renewable material.

462 150

## TePe® Denture Care

Size: Regular

- Efficient and safe cleaning of removable dentures.
- Brush head can be bent backwards for improved grip and accessibility.
- Designed to resemble a regular toothbrush.
- Made with certified renewable material.

422 368

Long, strong filaments for efficient cleaning of dentures.

## TePe GOOD™ Tongue Cleaner

- Three blades for a triple cleaning effect.
- Helps prevent bad breath (halitosis).
- Helps remove bacteria in a few strokes.
- Dishwasher safe.
- Made from plant-based materials.

Item no: 931 060

Floor stand made of cardboard with 16 hangers. Height: 147 cm. Width: 50 cm. Depth: 33 cm.

### Floor Stand Metal

Item no: 931 054

Floor stand on wheels with 21 hangers, 1 shelf and 2 folder displays. Height: 164.5 cm. Width: 50 cm. Depth: 37.5 cm.

## Healthy smile

The basis for maintaining healthy gums is efficient everyday self-care. Professionals have a key role in motivating the patient and recommending the proper products.

## Orthodontic care

Fixed orthodontic appliances can attract a quick build-up of plaque around brackets, bands, and wires. Systematic self-care routines are needed to prevent gingivitis and caries.

## Implant care

Professional guidance on suitable products and cleaning techniques is important to prevent the development of peri-implant mucositis and peri-implantitis.

## Paedodontic care

In order to promote a healthy mouth throughout your lifetime, we recommend you start brushing when the first tooth emerges. Interdental cleaning is often recommended from the teenage years onwards.

# TePe – innovative oral health solutions

 Made in Sweden

Building on our vision to bring healthy smiles for life, we aim to support people in their daily lives. From everyday choices to special needs, our broad range enables efficient self-care solutions for every individual.

All TePe products are developed in collaboration with dental experts and produced in Sweden. Marketed by subsidiaries and distributors in 80 countries, the TePe range is available through dental practices, pharmacies, e-tail and retail.
